[linkedin.com/in/vikas-singh-12717a1b4/](https://linkedin.com/in/vikas-singh-12717a1b4/)

I am big fan of technology. During my time at college, I was class representative of my batch. I was also part of Inter NIT cricket team. I led my electrical branch badminton team in intramural tournament of college where we won that tournament. Earlier I wanted a core job but later my field of interest changed completely. I started my coding journey with C++ programming language and started participating in various platforms like codechef, codeforces, leetcode, hackerrank and hackerearth. To create a software is sometimes to think and not type at all.

## SKILLS

Languages Used	C++, java, javascript, Python, R programming
Tools/Framework Used	React, Firebase, Node.js, Mongo DB, GitHub, Git, Postman, Jupyter Notebook, Pandas, Service now
Communication	English, Hindi

## TECHNICAL EXPERIENCE

### Junior Developer / Full Time

Deloitte USI

07/2021 — Present

Bangalore, Karnataka

- Working on Service Now SAAS based cloud platform.
- Managing all the data and workflows of Big companies ex- JPMC, Wells Fargo e.t.c
- Integrating their workflows with jira, microsoft, REST, APIs.

### Full Stack Developer / Intern

Deloitte

03/ 2021 — 06/2021

Mumbai, Maharashtra

- Designed and developed a fully responsive website (for internal use only) for deloitte managing hr services and deployed on AWS.
- Achieved an 80% reduction in the preparation and exchange time of standard partner material.
- All code was reviewed and pushed to production. Leveraged knowledge in full stack development and received a full time job offer.
- Attained the first position in a 3 days hackathon among 30+ participants.

### Property Cost Prediction

- I used housing data Boston uci ml repository.
- Analyzed Exploratory Data Analysis (EDA) on dataset to discover pattern and plotted 10+ graphical representation.
- Created and trained three models (Decision Tree, Linear Regression and Random Forest Regression) using Scikit-learn and Pandas to predict the cost.

### Portfolio

- Personal Portfolio website.
- React.js, Framer Motion library used for animation.
- Hosted on Firebase.

## EDUCATION

Bachelor of Technology in Electrical Engineering, NIT Patna (CGPA-7.47)

2017-2021

Class XII, Tulsi Vidya Niketan, Nagwa-varanasi (percentage-77%)

2014-2016

Class X, Dayawati Modi Academy, Ramnagar-varanasi (CGPA-10)

2012-2014

## ACHIEVEMENTS

Solved around 800 coding problems in several competitive platforms.  
Achieved Max. Contest rating of 2000 in leetcode.  
Ranked in Top 1.1% amongst 15 lakh in JEE-Mains(2017).  
Secured 1st rank on district level NTSE
